

RS JUMBO

An indicator of quality for available in the market the best welding gloves. Strict standards applicable to the density and thickness of the leather guarantee the highest quality of the gloves.

double seams, made
with the original heat
-resistant yarn Kevlar
slow-burning

soft trimming and the fact
that the seams are hidden
inside the lining
**increases its long-term
use even at high
temperatures**

impregnated leather
fire proof impregnation

Cotton Comfort - a high
quality cotton lining
absorbs sweat

the excellent glove pads
used in JUMBO gloves
manufacturing perfectly
imitate the shape of the
welder's hand during
working
**enables ergonomic
bending without causing
scratches and doesn't
block welding movements**
